Germany

Wherever space is limited, true comfort should never be.

Froli folding beds combine elegant design with the feeling of a real bed, turning any room into a welcoming retreat for your guests. At the heart of both models lies the innovative Froli sleep system, with its flexible, point-elastic elements that adapt to the body and provide exceptional support and ventilation. The result is a sleep experience that feels light, balanced, and naturally comfortable—night after night, even in the most compact spaces.

Whether fixed in place or easily moved, each Froli folding bed offers the same promise: smart functionality, premium materials, and the unmistakable comfort of the original Froli system.

*More space
for dreaming*

FOLDING GUEST & BUSINESS BEDS

Relax & Move

The Relax + Move combines high sleeping comfort with practical mobility. Its lightweight yet stable aluminum frame and point-elastic Froli suspension with adjustable firmness levels provide an ergonomic sleeping position. Smooth-running castors and the compact folding mechanism make it quick to set up and just as easy to store away – ideal for guests or flexible living spaces.
